OUTDOOR LIVING

# DEL MAR

Sophisticated outdoor living spaces have become a tour de force in upscale entertaining, reflecting the scale, styling and attention to detail that was once the exclusive purview of luxury home interiors.

Exterior design has become as important as interior design.

Contemporary styling is the prevailing trend in alfresco living. Designs feature sleek architectural lines, a fusion of unique materials and striking fabric combinations. Del Mar features an innovative portfolio of contemporary designs, with a remarkable range of seating and dining configurations to accommodate the scale and sophistication of any outdoor living space.

The Final Touches program is a collection of options that can be selected to create your custom outdoor upholstery at **NO CHARGE**.

Simply choose your seat fabric to determine the graded price, then select any combination of the following options to create your unique custom outdoor upholstery:

**Contrast with FABRIC....using any fabric Grades A-B-C-D-E**

- on both sides of standard throw or kidney pillows
- on one side of standard throw or kidney pillows
- on back cushions (where standard)
- on kidney pillow borders

**Contrast with WELT....using any fabric Grades A-B-C-D-E**

- on standard throw or kidney pillows
- on back cushions
- on seat cushions

**Contrast with TRIM....on standard throw or kidney pillows**

- add outdoor decorative fringe
- add outdoor decorative cord

Your choice...no charge. Final Touches No Charge Options applies to all custom outdoor upholstery frames. When using a seat fabric in Grades F-G-H, contrasting fabrics and welts at the same grade or below are included in the base price. However, if the seat fabric is Grades A-B-C-D-E, contrasting fabrics and welts in F-G-H require an upcharge. See dealer for pricing.

## THE FINEST MATERIALS

### CAST ALUMINUM FRAMES

Tommy Bahama Outdoor Living frames are engineered for strength and built to last using endurance cast aluminum. Joints are precision-welded for strength and durability and then ground and polished by hand to ensure a smooth and seamless look.

### ALL-WEATHER WICKER

Tommy Bahama all-weather wicker is crafted from the finest man-made materials and custom designed in exclusive colors, shapes, sizes and patterns to our exacting standards. It is woven by hand, capturing the timeless and classic look of natural wicker or rattan, with exceptional durability. The material is made of high-density polyethylene, a recyclable material with great tensile strength. It is highly resistant to UV exposure, mildew, fading, staining, stretching and cracking. Tommy Bahama all-weather wicker is easy to maintain by cleaning with a mild solution of soap and water.

### CUSTOM FINISHES

Finishes on Tommy Bahama Outdoor Living products are specially formulated, with custom base coats and painstaking handwork, to achieve a unique look. Ultra-durable polyester resin powder-coated finishes are baked on cast aluminum frames, ensuring that they are colorfast and highly resistant to damaging UV rays. Finishes are also corrosion and scratch resistant. The element that sets these designs apart is meticulous handwork using techniques like dry brushing, padding and burnishing that result in a product that is virtually indistinguishable from fine interior home furnishings, yet built to endure the elements.

## PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A "performance fabric" is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

## WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on most fine indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking with a Tommy Bahama watermark to verify its authenticity. This ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
