

Mozambique

Tommy Bahama
OUTDOOR LIVING

Offering a fresh perspective on contemporary outdoor living, designs in Mozambique seamlessly blend clean lines and a strong linear aesthetic. Each piece is meticulously crafted from Eclipse® synthetic teak in an exquisite taupe-gray finish. This sustainable, eco-friendly material not only features exceptional durability, but requires minimal maintenance.

Experience the allure of natural teak without the fear of color variation over time, as Eclipse® synthetic teak maintains its pristine appearance season after season. Beyond its aesthetic appeal, the material's density contributes substantial weight to the designs, presenting a notable advantage in areas where wind resistance is important. We invite you to experience the fusion of style, durability and sustainability with the Mozambique collection, where refined alfresco living meets unparalleled contemporary style.

Tommy Bahama®

OUTDOOR LIVING

The most respected brand in luxury outdoor living blends innovative design with the finest materials and custom finishes to create a look that can transform any outdoor living space.

Designs feature clean architectural lines for a bold contemporary look

Dining tables have umbrella pass-through access ports concealed with a TB monogram insert

Seat and back cushions are attached with Velcro straps for easy removal

Eclipse® synthetic teak offers colorfast beauty, durability and an eco-friendly option for outdoor living

Tables feature soft radius corners and a reverse bevel detail on the legs and bases

Mozambique blends fresh contemporary styling with a relaxed vibe for a remarkable look. Upholstery designs feature enhanced pitch and extra thick cushioning that offer an amazing seating experience.

OUTDOOR LIVING

Eclipse® Synthetic Teak

Eclipse® synthetic teak offers the texture and appearance of natural wood, while being eco-friendly and offering breakthrough durability with minimal maintenance. The product is made of a proprietary blend of polystyrene with no cellulose-based fibers, no BPA, and no PVC, making it the ideal material for designing and crafting the finest outdoor furniture. In addition to durability, the product's resistance to color change over time is one of its greatest benefits.

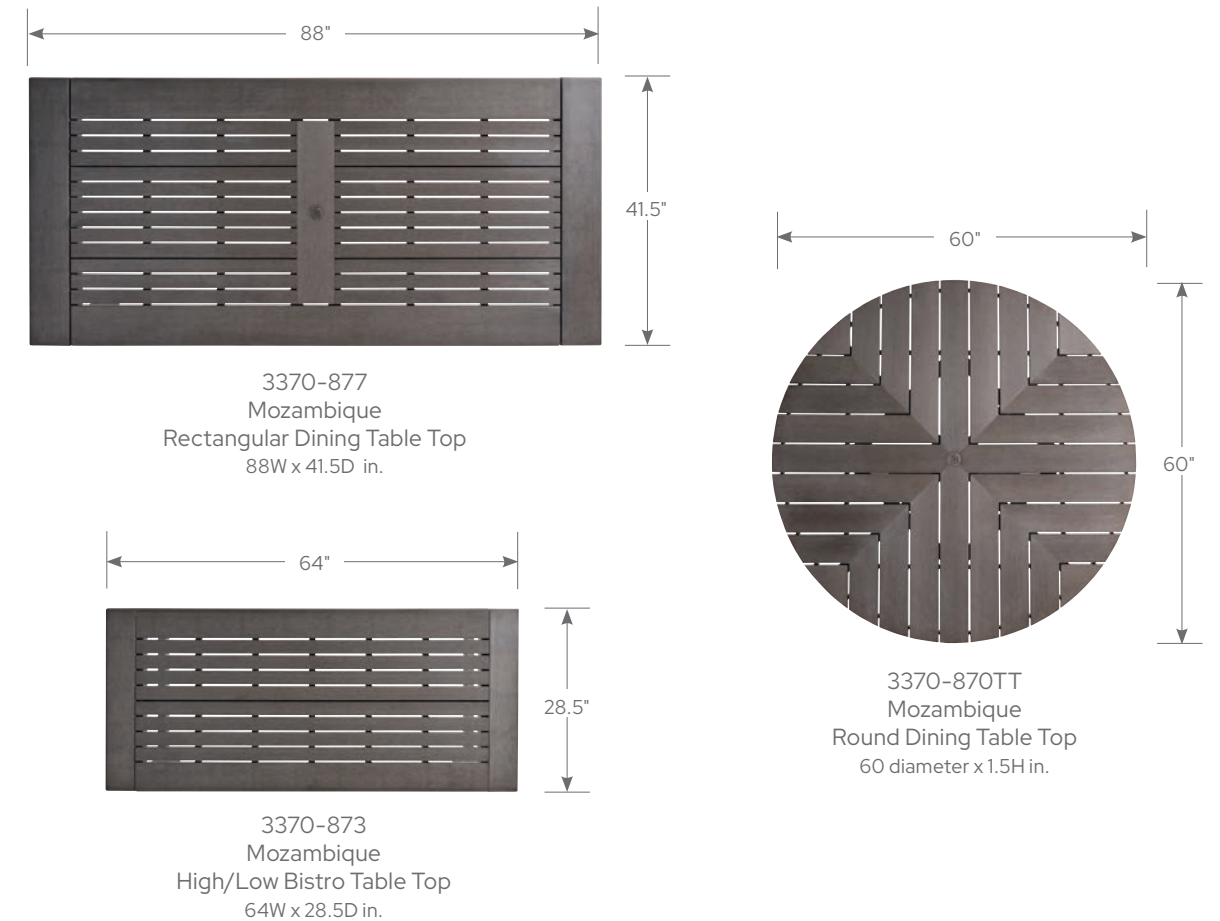

Care & Maintenance

Eclipse® synthetic teak is highly resistant to stains and requires very little routine maintenance. It should be cleaned as needed with a lukewarm soap solution and a sponge or brush. Scratches and scuffs can be repaired by rubbing gently in the direction of the grain with a fine Scotch-Brite® pad, available at a Home Improvement store. Use only light pressure when rubbing with the pad. Eclipse® synthetic teak requires no staining or waterproofing treatments.

- Use dishwashing liquid and water to remove oil stains from surfaces
- Use heat-resistant pads under hot items to avoid heat damage to the surface
- Use coasters under glass items to avoid heat damage from refracted sunlight
- Rest cold beverages on coasters to avoid moisture rings
- Avoid placing sharp objects on furniture surfaces to avoid scratches
- Do not use furniture covers made of 100% polyester as they are abrasive

DINING TABLE TOP CONFIGURATIONS

ACCENT PILLOWS

Since most like to customize the size and configuration of their accent pillows, upholstered seating in Mozambique does not include standard accent pillows. Seven different sizes and shapes of pillows are available. They may be specified with standard 1/4 inch welt, larger 1/2 inch welt or without welt. All pillows feature 100% all-weather fiber in a water-resistant ticking that is thermally sealed to deter water penetration.

Numerous trim options are available on accent pillows, including contrast welts in any fabric as well as decorative cords, fringes and tape treatments. Please see the Tommy Bahama Outdoor Living price list for details.

required for use with umbrella stand.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today – and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology.

A “performance fabric” is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on the finest indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.

- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
