

ST. TROPEZ

Tommy Bahama
OUTDOOR LIVING

ST. TROPEZ

Elevated outdoor living has been called the ultimate luxury, and in designing those spaces, layout and styling are of paramount importance. In other words, interior and exterior design have become equal partners in achieving continuity between one's indoor and outdoor living spaces.

Designs in St. Tropez make a bold contemporary statement, with clean lines and a distinctive architectural perspective. Premium all-weather lanyard cording emphasizes the strong horizontal and vertical motif. Dining and occasional tops feature a radial slat design in wrought aluminum with a custom finish that reads as natural teak. The look is strikingly contemporary, while the relaxed, sophisticated vibe is classic Tommy Bahama.

Tommy Bahama
OUTDOOR LIVING

The clean contemporary lines of the 77-inch St. Tropez sofa are highlighted by the vertical application of lanyard cording around the perimeter. That lineal motif is repeated in the design of the cocktail and end table bases. The cultured stone tops on both pieces feature an ivory coloration with hints of taupe, blending beautifully with the collection's finish. Accent pillows on the sofa are optional.

DETAILS

The custom finish on wrought aluminum is a golden brown teak coloration that incorporates hand-applied dry brushing for a look that emulates the natural grain lines in wood.

Cultured stone tops on the St. Tropez cocktail and end tables feature an ivory and taupe coloration with vein lines that mirror the look of natural travertine, without the maintenance issues.

The all-weather premium lanyard cording used in the collection is a high tensile strength PVC and Polyester yarn that is weather proof, highly resistant to UV rays and will not stretch.

Dining tables in the collection feature an umbrella pass-thru in the top. Included with the table is a decorative monogrammed insert that covers the opening when the umbrella is not in use.

DINING TABLE TOP CONFIGURATIONS

ACCENT PILLOWS

To further customize your outdoor upholstered seating, seven different sizes and shapes of accent pillows are available, with or without welts. Pillows feature 100% all-weather fiber in a water resistant ticking that is thermally sealed to prevent water penetration.

DECORATIVE TRIMS, FRINGES, TAPES AND CONTRAST WELTS

Numerous trim options are available on accent pillows, including contrast welts in any fabric as well as decorative cords, fringes and tape treatments. Please see the Tommy Bahama Outdoor Living price list for details.

THE FINEST MATERIALS

CAST ALUMINUM FRAMES

Tommy Bahama Outdoor Living frames are engineered for strength and built to last using endurance cast aluminum. Joints are precision-welded for strength and durability and then ground and polished by hand to ensure a smooth and seamless look.

CUSTOM FINISHES

Finishes on Tommy Bahama Outdoor Living products are specially formulated, with custom base coats and painstaking handwork, to achieve a unique look. Ultra-durable polyester resin powder-coated finishes are baked on cast aluminum frames, ensuring that they are colorfast and highly resistant to damaging UV rays. Finishes are also corrosion and scratch resistant. The element that sets these designs apart is meticulous handwork using techniques like dry brushing, padding and burnishing that result in a product that is virtually indistinguishable from fine interior home furnishings, yet built to endure the elements.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A “performance fabric” is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on the finest indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
